Who is this computer for?

A student computer is for someone who is enrolled into secondary education and requires the specs required to use software that is needed in university programs

Specificatiuons

At least an Intel Core i5 processor (i7 preferred)
Windows 10 x 64
16 GB of RAM
500 GB hard drive
Wireless Ethernet (802.11 g/n)
Three-year warranty (recommended)
Total estimated cost: The price of laptops with these specs can range from $500–$1,500. AAP IT Solutions recommends investing in a better laptop now that can last a student through their years at Cornell. Less expensive models tend to be less durable and unreliable.
